

LEADING THROUGH INNOVATION

# PREMOBOND

POLYESTER / PLIED / BONDED

**PREMOBOND** is a bonded twisted polyester thread designed to meet the performance requirements of a wide range of applications. In addition to good overall UV, colorfastness, and chemical resistance properties, PremoBond's excellent bond quality provides for superior sewability. Applications include: outdoor and marine products, filtration, footwear, luggage, geotextiles, tarps, and slings.

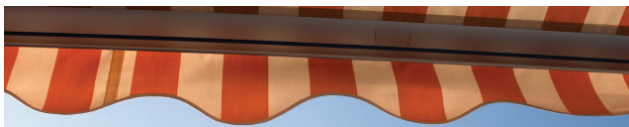

## FEATURES & BENEFITS

EXCELLENT SEWABILITY

SUPERIOR BOND QUALITY & CONSISTENT DIAMETER

GOOD RESISTANCE TO UV & MOST CHEMICALS

GOOD DURABILITY IN OUTDOOR PRODUCTS

# PREMOBOND

## SPECIFICATIONS

Product Descr.	Tex Size	Metric Size	Strength (lbs.)	Strength (grams)	Needle Size (metric)	Put-up
