A NEW STANDARD IN PTFE PERFORMANCE SEWING THREAD

LONG LASTING VIBRANT COLORS

LASTS AS LONG AS THE FABRIC

UV AND WEATHER RESISTANT

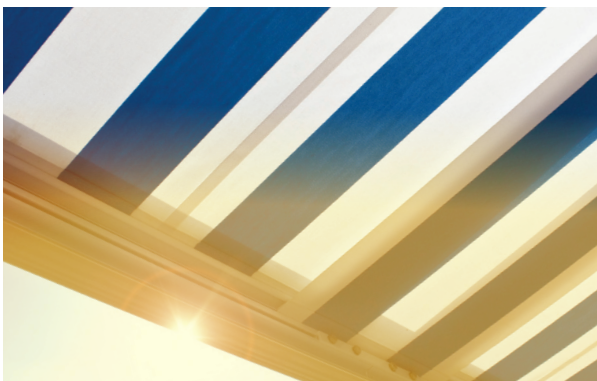

CHEMICAL RESISTANT

MILDEW RESISTANT

WILL NOT ROT

LIMITED LIFETIME WARRANTY

Aruvo™ sewing thread and pre-wound bobbins are made from premium PTFE fiber, to extend the life of your sewn seams. Standard thread can break down over time from sunlight, wind and the outdoor elements, but Aruvo™ retains its strength and flexibility after years of UV and sunlight exposure, unaffected by salt water, acid rain, or extreme temperatures. You can depend on Aruvo™ for long lasting, fade resistant color that will not stain or transfer to surrounding materials.

TOP THREAD SPECS

Thread	Break Strength (lb)	Elongation	Yield (per lb)	Needle Size	Approx. Tex Size
1350d White	15.5	5.60%	3,200	110-120	Tex 90
