

RIPIT NWC

NWC SLITTING CORD | PARA ARAMID | FLAT-OVAL

Aramid ends are twisted together to produce a ripcord that rips through thick and armored jackets like a saw. Yet the ripcord has a low profile. The aramid is non-wicking to inhibit water ingress via the ripcord. Provides consistent and reliable break free ripping performance even at below freezing temperatures.

FEATURES & BENEFITS

- Non-Wicking
- With twist to rip through the thickest jacket
- Ideal to rip through armored cable jacket
- Strongest ripcords available
